**Precast Concrete**  
Trench Cover/Drain Cover for various loading and spans can be manufactured as per the customer's requirements for which the following information is required:

- Outer dimension of the cover with tolerances.
- Thickness of cover.
- Loading on the cover.
- Clear opening of the frame or chamber on which cover is required to be placed.
- Hole size and configuration.
- Any other features required.

Konkrete Precast Concrete Products are manufactured using the latest vibro-compaction techniques, accurately designed moulds, appropriate reinforcement with circular plastic spacers and a concrete grade of M30 and above. We can also produce customised products for your special needs, subject to large quantities. To order customised products, sizes, strength required and other necessary information needs to be sent. In our constant endeavour to improve the products, the specifications may change without notice.

All dimensions are in mm

**BENEFITS OF PRECAST CONCRETE**

EFFICIENCY – PRECAST CONCRETE PRODUCTS ARRIVE AT THE JOBSITE READY TO INSTALL. THERE IS NO NEED TO ORDER RAW MATERIALS SUCH AS REINFORCING STEEL AND CONCRETE, AND THERE IS NO NEED TO SPEND TIME SETTING UP FORMS, PLACING CONCRETE OR WAITING FOR THE CONCRETE TO CURE.
